

PRODUCT SHEET & SPECIFICATIONS

N.FORM DECORATIVE FIXED MOUNT ROUND SPEAKER WHITE/BLACK

(MODELS G865-W/G865-B)

FUNCTION

Emerald Technology was innovated to provide superior performance in Mass Notification and Emergency Communication (MNEC) solutions. Emerald enhances the n.Form engineered system solution as well as the Lencore paging and audio system to deliver a clearer, more intelligible message and audio signal

The wall mounted Pendant Speaker offers a decorative, direct fired option when aesthetics is a concern. With more open environments and exposed ceilings becoming the norm, a decorative solution for sound masking and Mass Notification has been difficult to find. The speaker is constructed of high quality plastic, delivers the superior sound quality Lencore is known for, and is easy to install. The speakers can be mounted to the ceiling, a wall, or a beam and allow for Cat5e connections directly to the speaker.
