

Lencore

THE LEADING MANUFACTURER OF SOUND MASKING SYSTEMS.

A GREAT SOUND MAKES NO NOISE®

LENCORE SPECTRA – i.NET™ SOUND MASKING SYSTEM

Remote Control Specifications – Model G16

What makes Lencore's new Spectra i.Net™ system intelligent is its intuitive technology and its infinite flexibility on an open-platform system to suit any project size. The combined innovations of the complete sound masking system – sound source, speakers, power supply; i.LON®, music page interface, equalizers, online Sound Manager control and one-touch remote control put the Spectra i.Net™ system on a new level of customization and performance.

The Spectra i.Net™ system is the most sophisticated masking system available when a network system is required. The system features fast, complete control over every sound frequency for masking. Extreme design flexibility, plus, easy system expansion with the addition of sound sources and speakers to the network. Sound control with the click of the remote or mouse, even off-site. Preferred, award-winning sound quality, only from Lencore's Systems.

The i.Net's hand-held remote control enables end users to make immediate volume and contour control adjustments for masking, paging and music. Point the remote to a wall mounted, infrared receiver panel or directly at an OP.

Remote size: 2" w x 3.5" h
Thickness: 1/4"

TECHNICAL SPECIFICATIONS

Molded plastic slim style hand held remote adjusts volume and contour for masking, music and paging at OP location by channel. Also can be configured to use at a designated wall location if desired.

Remote construction: Molded plastic rubber coated resin adjustment buttons.

Size: 2" w x 3.5" h
