EDUCATION

Lencore transforms environments that change people's lives. Utilized by College Campuses and Universities nationwide, Lencore's customized engineered solutions uniquely address the privacy and safety requirements of any facility. Our Spectra i.Net® and n.FORM™ systems provide acoustical comfort and communication solutions to ensure intended audiences are well informed and directed to safety during an emergency event. A single system is able to carry four times more channels than other system(s) and can therefore cover over 6 million square feet and connect multiple buildings to reach 100% of the people. Whether you are a college campus or another organization, we believe it is our responsibility to help you create a comfortable, productive and safe work environment.
