

## PRODUCT SHEET & SPECIFICATIONS

# i.Net

# WALL MOUNTED HEADEND ENCLOSURE

MODEL G625\* / G627

3RU draw (Model G627).

## FUNCTION

For privacy, comfort, paging and audio, Lencore offers clients the i.Net Wall Mounted Engineered System Solution Enclosure.

This packaged approach provides clients with an enclosure that houses all of the system's headend equipment completely pre-installed and wired.

Typically installed in the Intermediate Distribution Frame (IDF), Main Distribution Frame (MDF), telephone or electrical closet.

The enclosure is specified for inclusion with every i.Net system.

\*Customization to the system packages can be made based on the specific features and capabilities a client requires and the appropriate equipment installed in the enclosure.

The Engineered System Solution Enclosure packages are available in either wall mounted or rack mounted (3RU drawer option) for flexibility and ease of installation.
