

PRODUCT SHEET & SPECIFICATIONS

i.Net WIRELESS LAPEL MIC

MODEL MICWRLS/BATPK

FUNCTION

The MICWRLS/BATPK is a lavalier electric condenser microphone designed for use with a wireless body-pack transmitter. Each microphone has a 1.2 meter (4 ft.) cable terminated with a miniature 4-pin mini connector. The furnished tie clip can be rotated in 90 degree intervals for placement flexibility. Pickup angle is 130 degrees. The wireless bodypack transmitter is designed to hold up to the most adverse conditions and is suited for installed sound applications and working bands

*For use with MIC-WRLS-SYSTEM
